

Your Retirement, Your Way

What is Self-Directing?

A Self-Directed Individual Retirement Account allows you to invest in what you know. This is not just stocks and bonds, there are no artificial restrictions!

Why Self-Directing?

You can invest in alternative assets income tax-free or income tax-deferred. Returns in your IRA can compound without a visit from Uncle Sam.

IRA Partnering

Just starting out? Got a big investment in mind? Join a partner to access larger investment opportunities. A partner can be another IRA, you or your business, or anyone else.

Self-Directed Accounts

- * Traditional IRA
- * Solo 401(k)
