WHO WE ARE

Founded in 2017, Yrefy is a student loan lender, specializing in refinancing distressed and defaulted Private Student Loans.

Yrefy negotiates with the original lenders and agencies for a deep discount on the original loans. Through this discount, we leverage investor funds, providing a very low fixed rate for our borrowers and give a healthy and secured return to investors.

Taylor P. – Borrower

DOING GOOD

Your investment dollars are helping our young people honorably repay their Private Student Loans. Student loans crush many new graduates. A Yrefy Student Loan Refinance builds their credit, financial reputation, and confidence through escrow and ultimate loan repayment.

INDUSTRY EXPERIENCE

We have over 120 creditor and agency relationships in our industry, including all major name-brand lenders. Each executive staff member has 20+ years of student lending, negotiations, and estate and financial planning experience.

SECURE INVESTMENT

- Loans are Private – NOT Federal Student Loans.
- Your Investment is secured by a portfolio – not individual loans.
- Borrowers escrow for six months (average) before your capital is committed.
- Portfolio loans have a 70% co-borrower rate (usually parents or grandparents).
- Portfolio loans are bankruptcy remote.
- 5-Year aggregate default rate less than 2%.
